Previous year co-amoxiclav usage as stronger predictor

Co-amoxiclav R community E. coli UTIs

\[ p = 0.20 \]
\[ p < 0.001 \]

Current year co-amoxiclav usage as stronger predictor

Community E. coli UTIs regardless of resistance

\[ p = 0.35 \]
\[ p < 0.001 \]

Community urines regardless of result

\[ p = 0.40 \]
\[ p < 0.001 \]

Yearly number for each GP practice 2012-2016

Yearly co-amoxiclav DDD per 1000 patients per GP practice 2011-2016
